

## Guidelines on how to use the Prayer Bookmark

### Giving

Put your contact details under the Psalm section and on the back of the 'Pray for me' list.

The book mark has a perforation so it can be split in half.

After filling it in the receiver returns the list but keeps the section with the picture and Psalms details.

Point out the Bible App in case they do not have a Bible but do have access to the internet. If they prefer a Bible then a non-church goer will find it easier to read if you give them a more modern translation.

If you have been doing the Neighbourhood Prayer Watch Ministry then this card is a good way to spiritually connect with those in your community.

### Praying

When the list has been returned, promise that you will pray regularly for the person and their request. You could state the day of the week and the time of the day that you will pray as they may find it is then that God answers the prayer.

You may have promised to pray for a month and then return to find how they are getting on.

Another way to keep in touch is to have the permission of the person to exchange your phone numbers. Arrange a day and time suitable for you to phone them or they could phone you.

This Prayer Ministry is a way to build up a friendship until the person is more receptive to you sharing about what God has done in your life.

Pray God will impress you when to share more about God's love and His written message, the Bible.
